Here in the dark, searchin' my heart for the words to say
Lyn' alone, so afraid that I've thrown it all away
Through the tears, foolish pride, still somehow I knew
we'd survive
Then I saw the light in your eyes, that's when I knew I
couldn't hide
And then
Suddenly it came over me, all the times that I spent
pretending
Like destiny, it was meant to be, hear the messages
that I'm sending
It took some time but I realized, could I ever give you
enough?
I promise you my never-ending love
Out on the street, all the faces I meet look the same to
me
I wander alone, knowin' somehow you're growin' away
from me
When I look at my life, (well) I know you're the one thing
that's right
And I need you near me tonight, to feel your touch,
holding me tight, and now
Suddenly, it's so clear to me, a love like ours should be
worth defending
Hold me now and I'll show you how
This heart of mine, yeah, it's finally mending
I pray the flame is still burnin' bright, you were sent to
me from above
I promise you my never-ending love
And in the darkness I believe, somewhere deep inside
of me
I know our love will carry on, yeah
(Solo)
When I look at my life, (well) I know you're the one thing
that's right
When I saw the light in your eyes, that's when I knew I
couldn't hide
And then
Suddenly it came over me, all the times that I spent
pretending
Like destiny, it was meant to be, hear the messages

that I'm sending
Hold me now and I'll show you how
This heart of mine, yeah, it's finally mending
It took some time but I realized, could I ever give
enough?
I promise you my never-ending love, I promise you my
never-ending love
