In a cold, far away world
A battle is raging between evil and good
From the stars, they came here to Earth
Caught in their struggle through the whole universe
Robotic warriors giving their all
Fight in disguise, 'til the victor stands tall

Transformers
Defenders of truth, robots who fight in disguise
Transformers
When the battle is through, only the strong will survive
Til all are one

Unknown soldiers fighting the war
Used the power and wisdom
From those gone before
Leads them on to victory
Lights their darkest hour
Their one destiny
Truth has its moment and right always wins
Prepare for the fight, let the battle begin

Transformers
Defenders of truth, robots who fight in disguise
Transformers
When the battle is through, only the strong will survive
Til all are one

Galaxy's worried they'll retreat
To this darkest corner
With the enemy gone
They will finally live on
As they revel in their victory

Robotic warriors give it their all
Fight in disguise
Til the victor stands tall

Transformers
Defenders of truth, robots who fight in disguise
Transformers

When the battle is through, only the strong will survive
Til all are one

Transformers
Defenders of truth, robots who fight in disguise
Transformers
When the battle is through, only the strong will survive
Til all are one
