Stepping out tonight flying so high  
It's the good times keeping me alive  
Are you ready to hit it running  
This is where it's at six in the morning

You can't fake this only imitate this (you wanna lose control)  
You can't fake this only imitate this (you wanna lose control)  
The way she does it I can't get enough  
The way she does it I can't get enough

Attack we keep it on the dance floor  
Discotech meet me at the back door  
Let's get down we've been waiting a long time  
She's back i can feel it in the air  
Discotech you know she's going to be there  
Let's get down we've been waiting a long time

Show up in the club take a look around  
Me and my crew we came to get down  
She's giving me looks I can't help it  
The way im feeling it's going to happen

You can't fake this only imitate this (you wanna lose control)  
You can't fake this only imitate this (you wanna lose control)  
The way she does it I can't get enough  
The way she does it I can't get enough

Attack we keep it on the dance floor  
Discotech meet me at the back door  
Let's get down we've been waiting a long time  
She's back I can feel it in the air  
Discotech you know she's going to be there  
Let's get down we've been waiting a long time

The way she does it I can't get enough

You make fast living look just fine

Looks like I got here just in time  
Tonight the city is yours and mine  
But it won't last forever

Attack we keep it on the dance floor  
Discotech meet me at the back door  
Let's get down we've been waiting a long time  
She's back I can feel it in the air  
Discotech you know she's going to be there  
Let's get down we've been waiting a long time
