"Trying Hard"

Visit "[Trying Hard](#)" on MotoLyrics.com

Trying hard to have a good time you bring me down
always talking to another guy when we go out
dont i hold you enough is it i dont have much to say
should i fuck someone up should i forget you like you
were yesterday

oh no take it or leave it
no no i take it were leaving

everytime i try and get high you bring me down
wonder who your out with when im not around
i guess im thinking about you
i dont know why you do the things you do
way to fast to understand any help anyone?
i guess i'll see you around see you around see you
around

oh no take it or leave it
no no i take it were leaving
oh no take it or leave him
no no i take it youre leaving

trying hard to have a good time

no no take it or leave it
no no i take it were leaving
no oh take it or leave him
no no i take it you're leaving
