Coz I only wanna dance on your body like a stripper on

wonderin' like how?
How do they flex on the song they flexin' so wild it's like

Makin' them shy guys playin' along you're ringin' on my
mind like ding ding dong ding ding dong
The club is a jungle and I'm king kong your body imma

She got spark lights like a precious stone
So sexy when she's whinin' you better be grown(grown)

She shakin' and flexin' like she ain't got no bones
I got two hands so I carry my ball coz all I wanna do
right now is dance

Chorus

Coz she dances like pro' got me breakin' out sweat
I don't think I'm ready for an exercise set Pep to the Y

Coz she flex on the vibe and she ain't finished yet
And we got all the eyes of the club and the dance floor

My body stick to your and I follow your step I dance
freestyle coz I had no prep
Dance flex whine sex to night we ain't got no comp-lex
We take our time so no rolex of the nasty talk we are
subject
Coz I'm keepin' it real I'm gettin' respect
And to your body I'm just like connected and I can't
disconnect coz we're so perfect
And stickin' to your body what a nasty effect
Coz I look into your eyes and I like the way your body
whine upon this beat
(I only wanna dance with you) girl you so fresh with that
sexy attitude

Chorus

As we go back to my place imma show annother face
No mo' seein' eyes who only wanna chase
I got that trophy and I'm proud I brung it home
It's clear you and I just wanna get some
Fun pleasure whatever we call it
We sure of somthin' both of us just want it
Put me in the mood by the way that you move
Like tip I just wanna get loose
Loose loose yeah I wanna get loose
Gettin' so far like a shot of grey goose
We take another shot then we layed on the bed
You screamin' so right neighbors know we ain't dead
Dead dead hell no we ain't dead
After another shot we still dancin' at the end
Dancin' drunk but we makin' the band
Feelin' it deep so she grab me by my hand
So she grabbed me by my hand stucked to her body my
minds in another land
Every time she whine my mind gets high plus she so

And all of this just started by a dance
