Keep my name from your mouth  
Keep me out of you thoughts  
I never want to see your face again

[Chorus]  
And how I wish I could forget the night  
You Fed me lies  
Open my heart to your false hope it  
Carpet bombs my mind  
I fall just like ur panties did  
When you ask for a taste  
My closed eyes perform genocide when I  
Think of your face

Your fake smile makes me feel decayed as I see you in  
that dress  
I know your free so leave me be fuck you, you left my  
soul a mess  
Half of the crotches in this town reek of Jack and rum.  
Great Job!  
You're squinted eyes scream hello kitty as you gag on  
cum. Great Job!

[Chorus]

You gouge my eyes  
And hypnotize  
You're scandalous  
It's no surprise
