"Where We Never Shall Die"

Visit "[Where We Never Shall Die](#)" on MotoLyrics.com

Sinner why not heed the day won't you come and go
this way

Where Jesus lives and we'll never say goodbye
To a home that's far and bright and there never is a
night

In a land where we never shall die

I've a home way up on high where we shall live and
never die

Won't you come and cross this river so wide
There with Jesus we will dwell never more to say
farewell

In a land where we never shall die

Walk the straight the narrow way fall down on your
knees and pray

God will help you cross the mountaintop so high
He will take you by the hand lead you to that promised
land

In a land where we never shall die
