give me head baby
give me head
like you did
just last night...

kiss my lips...
you got me steamin' at a hundred degrees
each time i see you i go weak at the knees
you bring me undone
you bring me undone
with words i said
with words i said...

but best of all
our love,
you give me head
you give me head
you give me head
you give me head

you give me scratch marks down the length of my back
(ah!)
you give me hickeys on the side of my neck
you whisper sweet things
you give me beat-ings
you wreck my b-b-b-bed
you wreck my bed...

but best of all
our love,
you give me head
you give me head
you give me head
you give me head

so
say you'll never leave
promise me you'll stay
'cause now that i'm in heaven
don't
slip away...

don't slip away baby...
just slip on in...
between...
my sheets...

you got me steamin' at a hundred degrees
each time i see you i go weak at the knees
you whisper sweet things
you give me beat-ings
you wreck my b-b-b-bed
you wreck my bed...

but best of all
our love,
you give me head
you give me head
you give me head
you give me head
you give me head
you give me head
you give me head
you give me head

don't stop baby...
