It's not my line of work, to tell you what to do,
Weeping tears and fucking stressing about it, won't get
you through,
I'd tell you if I didn't care, but now I'll tell you true,
I'm getting deep, deep into her, she's so over you.

You've run out of excuses, hell I even took my time with
her,
You still show the bruises, main I know that you still hurt
deep down,
But what am I to do? Do I leave her with goodbye?
I prefer hello, when was the last time that crossed your
mind?

It's pretty cold being left outside,
And it's pretty sad when I see where you just cried,
Oh lord, she's left you way behind,
I don't know if I can advise,
You don't know it's you that she despises,
She wears disguises (She wears disguises).

I'm way past caring too much, she opened her legs and
flew away,
Get your head around it, you've nothing left to say that
she'll listen to,
I swear if I could I'd give you another day,
I bet you'd fuck it up again anyway.

It's pretty cold being left outside,
And it's pretty sad when I see where you just cried,
Oh lord, she's left you way behind,
I don't know if I can advise,
You don't know it's you that she despises,
She wears disguises (She wears disguises).

I know you know, I know you're shutting it out,
She knows it's over, she's beyond doubt (x4).

Save your tears, save your lies,
Save your tears, sever the ties.

It's pretty cold being left outside,
And it's pretty sad when I see where you just cried,
Oh lord, she's left you way behind,
I don't know if I can advise,
You don't know it's you that she despises,
She wears disguises (She wears disguises).
