Mission bell is ringin' for you  
No one 'round and nothin' to do  
Memory will fly and will fall  
It's something you used to write on the wall  
Chorus:  
Wrong, so wrong, we're wrong  
People pass and walk a road that's  
Long, so long, it's long  
See you when the sun is high  
Wind is wild and blowin' too fast  
The first in line will soon be the last  
And when you go, somebody will cite  
Ground control, better cancel this flight  
Chorus repeat  
Maybe someday you'll finally reveal  
Something you stole, or something you'll steal  
Now everyone is pulling their load  
And do they grow, or do they explode  
Chorus repeat x2
