Drivin' on down, take the road to the south side
Radio for backup, code 2, say it's caution time
I found the body, deep square in a world of crime
Streets are wet with rain, wash away and blur my thin
blue line

Chorus:

Think I'll make a police call
No one knows, no one cares at all
Think I'll make a police call
Breakin' up a sex club, pelican and jacko
Tappin' telephones butt-naked with your hollywood ho
Crawl back in my chevy, call dispatch and hit the party
light
Bust 'em up with billy clubs, go home and light my
crack pipe
Chorus repeat x2
Breakin' down a door somewhere way out in diamond
bar
Hangin' at the roadblock, shootin' at a passin' car
Goin' undercover, bustin' heads at the sugar shack.
Gimme gimme drugs. gimme crack, gimme prozac...
