Just when you're down on your knees and you feel on  
the outside  
Lost in a mist of despair and defeat on the outside  
Heaven and me are your friends  
The lunatic pursuit is with you to the end

So keep on keeping on  
On the outside  
Down where we belong  
On the outside

All that I need in this world is to feel on the outside  
Someday I'll fix all that's wrong in your life from the  
outside  
Heaven and me are your friends  
The lunatic pursuit is with you to the end

So keep on keeping on  
On the outside  
Down where we belong  
On the outside (x2)
