"Wide Eyes"

There's something that I cannot hide
Use sulphur and formaldehyde
To taste it cause I'm so so high
There's sparkle in your wide eyes

I wish I could never lose this feeling
In my life I panic for no reason
Lets go floating dance until we're soaking
Then we go home and everyone is glowing

Meet me under moonlit skies
Blissed out in a trance vibe
Clued into the new hot hype
When dawn comes you're at my side

I wish I could never lose this feeling
In my life I panic for no reason
Lets go floating dance until we're soaking
Then we get home and everyone is glowing

I love your baby doll dress
Your tight jeans and your white vest
Sleeping in this hot mess
Sweating from your hotness

I wish I could never lose this feeling (x3)

Please don't let me ever lose this feeling

I wish I could never lose this feeling
In my life I panic for no reason
Lets go floating dance until we're soaking
Then we get home and everyone is glowing
