Written by Neil Diamond

Mama told me that some day it would happen  
But she never said that it would happen like this  
Papa said, Look out, some girl'll catch you nappin'  
Some little girl will get to you with her kiss  
You got to me  
You brought me to may knees  
Never thought I'd say please, girl  
You got to my soul  
You got control  
You got to me, you got to be mine

Used to slip though every girl's hand like water  
There never was one who could ever tie me down  
Straight ahead and steady as Gibraltar  
'Til you brought me tumblin' to the ground

You got to me  
You brought me to may knees  
Never thought I'd say please, girl  
You got to my soul  
You got control  
You got to me, you got to be mine
