I love the way you shine
(Shine, shine, shine, shine, shine)
Hey!

If the sun was gone
And our days on earth were numbered
I'd still have your love
To light my way through dark

When I feel your touch, can't get enough
There's only you, there's only us
You lift my day, you spark that flame
Your love like a fire is lighting me up

[Chorus]
We're made of stars
Our hearts are lighting up the sky tonight
My eyes are blinded
By the way you shine your light
I love the way you shine
(Shine, shine, shine, shine, shine)

The crowd, the sound
The walls are melting to the ground
But the light survives
Shining through the dark

When I feel your touch, can't get enough
There's only you, there's only us
You lift my day, you spark that flame
Your love like a fire is lighting me up

[Chorus]
We're made of stars (Ooh!)
Our hearts are lighting up the sky tonight
My eyes are blinded
By the way you shine your light
I love the way you shine
(Shine, shine, shine, shine, shine) Hey, yeah, hey
(Shine, shine, shine, shine, shine)
(Shine, shine, shine, shine, shine) Yeah, yeah, yeah,

yeah
(Shine, shine, shine, shine, shine)

We're made of stars
Our hearts are lighting up the sky tonight
My eyes are blinded
By the way you shine your light
I love the way you shine

We're made of stars (Yeah, yeah, yeah, yeah, yeah)
Our hearts are lighting up the sky tonight
My eyes are blinded
By the way you shine your light (Whoa)
I love the way you shine
(Shine, shine, shine, shine, shine) Hey!
(Shine, shine, shine, shine, shine) See I love, I love the
way you shine
(Shine, shine, shine, shine, shine) Baby, you shine
(Shine, shine, shine, shine, shine) Baby, I love the way
you shine
