Karma's got an in with you  
And every single thing you do  
Oh it screams in our ears  
Liar and thief  
Because you hold it  
Stronger than life  
Give it away you've gotta give it away  
You've gotta give it away  
Oh Give it away, you've gotta give it away  
You've gotta give it away  
Now  
At war with soldiers fear  
Believing every lie you hear  
As it screams in our ears  
Saints and sinners  
More than a king I know  
There's gold in your soul  
Give it away you've gotta give it away  
You've gotta give it away  
Oh Give it away, give it away  
You've gotta give it away  
Come on
