### "Happy Hour"

Visit "[Happy Hour](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Grab your friends, cheers a drink  
Share a laugh, come in close  
For happy hour  
Raise your glass, raise your hand  
It's time to sing with the band  
It's happy hour  
Can you feel the temperature rise?  
The stars twilight the skies  
Oh it's happy hour, ya  
So why don't we, let the hours roll away  
Everyone is going our way  
So why don't we let the hours roll away  
Everyone is going our way  
It's time to stand, time to cheer  
Time to buy a friend a beer  
It's happy hour  
I know is it getting late  
Is it young we're not done having fun  
It's that time again  
Can you feel the temperature rise?  
The stars twilight the skies  
Oh it's happy hour, ya  
So why don't we, let the hours roll away  
Everyone is going our way  
So why don't we let the hours roll away  
Everyone is going our way  
Come on  
Everyone  
So why don't we, let the hours roll away  
Everyone is going our way  
So why don't we let the hours roll away  
Everyone is going our way
