If you let me, Iâ€™ll love you till I die  
Cause youâ€™re wonderful  
When the tears fall, fall from your eyes  
I will dry them all, love to dry them all  
And make it okay  
Wonâ€™t you let me, get under your skin  
Cause youâ€™re beautiful  
When the tears fall, fall from my eyes  
Oh, just let them fall  
And so please, please let me,  
So please, please  
Yah cause love is forever  
Iâ€™m not going anywhere  
Iâ€™ll stay here, stay with you  
Yah, cause this love is forever  
Iâ€™m not going anywhere  
If youâ€™d let me, Iâ€™d carry you from here  
Cause youâ€™re so beautiful  
When youâ€™re frightened and feeling all alone  
Iâ€™ll always be there for you  
And so please, please let me,  
So please, please let me here  
Yah cause love is forever  
Iâ€™m not going anywhere  
Iâ€™ll stay here, stay with you  
Yah, cause this love is forever  
Till you and I see the other side of the world  
Weâ€™ll stay as long as we like, as long as we like  
Weâ€™ll stay as long as we like, as long as we like  
Weâ€™ll stay as long as you like, as long as we like  
Till you and I see the other side of the world  
Just you and me here, just you and me here  
Just you and me here, it's just you and me here  
Till you and I see the other side of the world  
Iâ€™ll stay with you forever and a day  
I will stay with you
