It's higher than the sun  
Love, you've thrown me on my heels  
Higher than it feels  
I'm racing like a bullet from a pistol  
Love, you've got me on my knees  
More than a million leagues  
Won't you lift me higher than the sun  
And you, you make me feel  
So high, you make me feel  
Ya, I could die tomorrow  
You know, you know  
You, you're digging up my soul  
Loves so out of control  
And I'm spinning like a hurricane  
Love, the goals to let it go  
From soul to soul  
From soul to soul  
And you, you make me feel  
So high, you make me feel  
Ya, I could die tomorrow  
You know, you know  
We're ready, we're ready  
It's higher than the sun  
It's higher  
And you, you make me feel  
So high, you make me feel  
So alive!  
Ya, I could die tomorrow  
You know, you know
