

Starfield "Ordinary Life"

Visit "[Ordinary Life](#)" on MotoLyrics.com

Take me and invade me, make me someone new
Wake me from the dead and break me with the truth
Move me and disturb me, interrupt my peace
Tear open my heart and pull me to my knees
There's a world outside that is burning
While I'm turning blinded eyes while I stand by

I won't survive to live this ordinary life
I'm not alive to live this ordinary life

Take me and invade me, make me someone new
Wake me from the dead and break me with the truth
Move me and disturb me, interrupt my peace
Tear open my heart and pull me to my knees
There's a world outside that is burning
While I'm turning blinded eyes while I stand by

I won't survive to live this ordinary life
I'm not alive to live this ordinary life

I won't survive to live this ordinary life
I'm not alive to live this ordinary life

And I will try to see this world I live in with Your eyes
To love this world You've given with my life
To see this world I live in with Your eyes
To love this world You've given with my life

I won't survive
I won't survive
I'm not alive
I won't survive
I won't survive to live this ordinary life
I'm not alive to live this ordinary life
