Sta monopatia tou kaimou
stin gefira tou stenagmou m'ekane i mana mou
mia fthinoporini wradia
Zoi tin kria sou kardia eidan ta matia mou
me koudounistres plastikes omorfes
ke chromatistes me nanourisane
ke ta matakia ta mikra, idan tou cosmou t'agatha
ke simfonisane
itan to gala mou pikro ke to neraki mou gliko
pou me megalone, ki apenanti stin kounia mou
i mira i kakourga mou ke me kamarone
itan to klama mou mounto, san kati na thela na po ma den me niosane
mia lipimeni anapnoi gia tin poutana tin zoi
pou mou chreosane

etsi ksekinisa lipon, etsi ksekinisa
de me rotisane zoi ma se sinithisa
san pligomeno aetopoulo sto choma
psachno ti dinami na kratitho akoma
san pligomeno aetopoulo sto choma
psachno ti dinami na kratitho akoma

pano se laspes ke karfia stou adikou kosmou
ti fotia protoperpatisa
isoropia statheri gia na prolavo ti zoi
omos tin patisa
mono to alfa ke to chi stin scholiki mou epochi
protsillavisa
gi afto to ach ke to giati opou vretho m'akolouthi
(ach= the sound u make when you are in pain)
even if i became 40(years old)

etsi pernouse o keros
ki ego sto dromo mou skiftos ekana onira
etiche na 'me ap'aftous pou kolibane

stous afrous ke sta lasponera
stazi to ema tis psichis san tis stagones tis vrochis
omos pios niazete but who cares
and the invisible wound inside me bleeding
who shares it

etsi ksekinisa lipon, etsi ksekinisa
alla mou diksane ke alla ego antikrisa
thee mu ki as iksera pia mera tha pethano
ke tu thanatou mou genethlia na kano
thee mu ki as iksera pia mera tha pethano
ke tou thanatou mou genethlia na kano
