Rely on your medicines  
Made to imitate  
For the kids who were never bright  
Repeating all their grades

I've got to concentrate  
I've got to concentrate  
I've got to concentrate  
I've got to concentrate  
I've got to concentrate

It's never good to patronize  
You'll make the same mistakes  
Sometimes you're never right  
Sometimes you mix up names

I've got to concentrate  
I've got to concentrate  
I've got to concentrate  
I've got to concentrate  
I've got to concentrate

I've got to concentrate  
I've got to concentrate  
I've got to concentrate  
I've got to concentrate  
I've got to concentrate

I've got to concentrate  
I've got to concentrate  
I've got to concentrate
