Convince a mystic on how they missed it  
I've got some birds for another hat trick  
So if you murmur about a movement  
You moved a mountain and made a big dent

So don't try, you'll lose your control  
It's never easy to be me  
Don't try, you'll lose your control  
Who said it's easy, who says it's easy?

So am I fragile about my vision?  
I never asked for an opinion  
Convince a mystic on how they missed it  
I've got some birds for another hat trick

So don't try, you'll lose your control  
It's never easy to be me  
Don't try, you'll lose your control  
Who says it's easy, who says it's easy?

So don't try, you'll lose your control  
It's never easy to be me  
And don't try, you'll lose your control  
Who says it's easy, who said it's easy?  
It's never easy, it's never easy

So don't try, you'll lose your control  
It's never easy to be me  
Don't try, you'll lose your control  
Who says it's easy, who said it's easy?
