When you're walking in the dark  
I feel you coming back  
You keep taking everything  
Ruining the scene

You don't miss me like so long ago  
You don't miss me like so long ago  
Like so long ago

All we talk about is vain  
What about the name?

You keep taking everything  
Ruining the scene

You don't miss me like so long ago  
You don't miss me like so long ago  
Like so long ago  
So long ago

You don't miss me, so long  
You don't miss me, so long  
You don't miss me, so long

You don't miss me, so long  
You don't miss me, so long  
You don't miss me, so long
