A bunch of smoke with building wad  
In dissent under your "god"  
And we biked to drink the day  
Because downtown just fell away  
And the towers falling down  
Have the u.s.a. a frown  
And all the bumpkins wept at zero ground  
But all these fucking lies  
Tears up our weary eyes  
'Cuz 9/11 was an inside thing  
And G-Dub played the king  
To wipe the crime scene clean  
Smart folks know what I mean  
Giuliani fixed the job  
Abetted by the mob  
Air-force and C.I.A.  
N.O.R.A.D. with Dick Cheney  
Erased the facts away  
And the towers falling down  
Spun the populace around  
And all the families wept at zero ground

Three-thousand bodies never found?  
"pull"'s construction worked slang  
For a controlled demolition  
Bombed to pull it to it's base  
Marvin Bush helped put in place  
But crushed people "vaporized"?  
With the evidence erased  
The victim' families had no case  
But all these fucking lies  
Make the baby jesus cry  
'Cuz 9/11 was an inside job  
Not a "fuck u.s. kabob"  
Like the media portrayed  
Like the G.I.'s would get laid  
And it makes no fucking sense  
Like a failed air-force defense  
Because corporate oil got paid  
And I'll save you some suspense  
They wanted "dead presidents"
