If now's the time to get it right
It won't be over, I won't get over it
I thought about what I did, what I did

The air is colder than your shoulder
It won't be over until you're through with it
Times have changed but I haven't

I wonder what you'd say
If I was never in your way
Without you to occupy my mind
And I've wasted all my time

I know what's right
It's untouchable like
You know I'm right
I'm the shadow in your light

I know what's right
It's untouchable like
You know I'm right
I'm the shadow in your light

I know what's right
It's untouchable like
You know I'm right
I'm the shadow in your light

I know what's right
It's untouchable like
You know I'm right
