"Here With You"

Visit "[Here With You](#)" on MotoLyrics.com

From the pain that built my life
You can take it piece by piece
Hide it from the voice inside
Speak to me
Fractions of the things that passed
Are telling me to always stay inside
Stay inside this place forever here
Me and you, protected from defeat

Filled my life with thoughts of you and hope
To be here with you and hold you tight tonight

Never ending

Like a lie
Feels so distant
All must die
Nothing in this hollow world is real
And one time you will forget the fear
I will say farewell to dying stars
Greet new friends and kill the things that passed
Let me end the world
To see you fade away

Filled my life with thoughts of you and hope
To be here with you and hold you tight tonight
