"Inflamed"

Visit "[Inflamed](#)" on MotoLyrics.com

Walk the streets
Feel the pulse
See the fake human race
Walking dreamer I laugh at you
Walking dreamer you're in my way
So many ways
So many styles
Poor little thing get out of my sight
Seek the colors of your life
Find the answers to make it right

I cannot feel the light, I can...
Divide the future from the past
I cannot feel the light, I can...
Separate the colors from the light

Feel the beats of my heart
Tell the rage from my scars
Walking dreamer I laugh at you
Walking dreamer you're in my way
So many days
So many lies
Poor little thing get out of my sight
Seek the colors of your life
Find the answers to make it right

I cannot feel the light, I can...
Divide the future from the past
I cannot feel the light, I can...
Separate the colors from the light

Don't don't you fear the future
Don't you fear the light
Divide the future from the past
Separate the colors the light
