I've been waiting  
In this line  
A wonderland  
Press replay again  
So slow with you  
An evening groove  
Each step closer  
To this rollercoaster ride

A morning kiss  
To calm your breath  
The sun falls under  
No more tears in your hands  
At the top  
Of this wooden frame  
We'll ride home  
On this rollercoaster ride

I carry you to the room  
slowly taking curves  
I fall deep with you  
And tremble beneath your skin  
The air begins to roll  
Along the tracks we've laid  
As we hold on  
To this rollercoaster ride

Close your eyes  
Enjoy this ride  
Come sit closer  
I'll hold you now  
There's not much time  
Before we find  
We're back in line  
On this rollercoaster ride
