everybody got out of the water
in a lonesome convertible
with lipstick portables
you're part horrible (you're part horrible)
you're part affordable (you're part affordable)

... to san diego

was i seeing you or seeing double
with the palm trees adorable
in a town so explorable
you're part horrible (you're part horrible)
you're part affordable (you're part affordable)
you're part horrible (you're part horrible)

and that's why we drove to san diego

you're part horrible (you're part horrible)
you're part affordable (you're part affordable)
you're part horrible (you're part horrible)

and that's why we drove to san diego
