Its been a bit of a hard one I gotta say  
I had to take a load off at the bar  
But when she looked at me that way  
It was coke and rum before I got too far

I cant exactly tell you what the time is  
And I don't know where I got the courage  
But with that coke and rum you see its time for fun  
And you know that taste can nourish

To drink that day off the mind  
That's what the goal always seems to be  
And with a drink of the coke and rum kind  
It always tends to do the trick for me

Well I don't often get lost in a bottle  
And the cans aren't exactly for me  
But when my coke comes with a side of rum  
It seems that that's the drink for me

Coke and rum  
It just sooths the soul  
Coke and rum  
Its for me, woah

But when my coke comes with a side of rum  
It seems that that's the drink for me
