Damn this song on the radio
And this damn truck
On the side of the road
They left me stranded, empty handed
With no hope in sight
One too many times!

Just like the way you
Always change your mind
Baby I'm through
With all of your goodbyes
Well I guess you finally broke this heart of mine...
One too many times!

I patched the wall
Fixed the door
Walked away, came back for more.
I hit my knees with apologies
And believed all your lies...
One too many times

Just like the way you
Always change your mind
Baby I'm through
With all of your goodbyes
Well I guess you finally broke this heart of mine...
One too many times!
[x2]

Well I guess you finally broke this heart of mine...
One too many times!
One too many times!
