# "International Rock Star"

Visit "[International Rock Star](#)" on MotoLyrics.com

International rock star  
that would make the day go down easy  
crucified in my sports car  
i've got high hopes for things infamously.

and then there's love  
so keep, keepin' you down  
you find release in the big (?)

international rockstar  
that will make the pain go away  
the last one standing at the bar  
is the dream that will have to do for today

and then there's love  
so keep, keepin' you down  
you find some peace in the big (?)

well its funny (until then until then until then)  
that this is getting easy ( i can see...)  
[repeat 4 times]
