"the whole of england much be searching for me, well  
sooner or later they're going to find me"

"never. cause you see they're looking for you alright,  
but, nobody's looking for me."

International rockstar, that would make the day go  
down easy

Crucified in my sports car, i've got high hopes for  
things infamously

And then there's love, keep keeping you down  
You find release in the big time.

International rockstar, that would make the pain go  
away.

The last one standing at the bar, is the dream that'll  
have to do for today

And then there's love, keep keeping you down  
You find some peace in the big time.

Well it's funny (until then, until then, until then)  
But this is getting easy  
I'll keep you wrapped up tight in my collection.

Well it's funny (until then, until then, until then)  
But this is getting easy  
I'll keep you wrapped up tight in my collection.

Well it's funny (until then, until then, until then)  
But this is getting easy  
I'll keep you wrapped up tight in my collection.

Well it's funny (until then, until then, until then)  
But this is getting easy  
I'll keep you wrapped up tight in my collection.

"how long are you going to keep me here?"

"i don't know, it depends"

"on what..ON MY FALLING IN LOVE WITH YOU? if that's  
what you want then i'm going to be here till i die. now  
go away..GO AWAY! ....think it over."
