How could you do it  
I couldnt say  
Years built on sand  
June until may  
Second to second  
Lied even while you held my hand

Its death for the living  
Yes i am a ghost  
The mirror is cloudy  
I loved you the most  
You threw out the pieces  
Did things we didnt understand

He doesnt want her but he just wont let her go  
She started breaking but she still wont let it show

The clothes in the wardrobe  
Just send them to me

Theres bills her for you  
Thats cause nothing is free  
We build up with things  
To make us who we want to be

Is she in the background  
I just wouldnt know  
Did i build you a prison  
Please dont let me go  
Ive unlocked the doors  
But you cant walk away from me

He doesnt want her but he just wont let her go  
She started breaking but she still wont let it show  
He doesnt want her but he just wont let her go
