Living for only one, when will it stop?
Caught in the undertow, when will it stop?
Trying to fight the call, when will it stop?
Why does the night only always

All the winds that you rise, that you rise
All the winds that you rise, that you rise
That you rise, that you rise
All the winds that you rise, that you rise
That you rise, that you rise

When will it stop? No one forever young
When will it stop? I'm caught in the undertow
When will it stop? The brittle and bitter bone
When will it stop? Forgotten how to grow

All the winds that you rise, that you rise
All the winds that you rise, that you rise
That you rise, that you rise
All the winds that you rise, that you rise
That you rise, that you rise

All the winds that you rise, that you rise
That you rise, that you rise

You pick the storm or you pick the shore
Bolt it into the floor, to the floor
To the floor, to the floor
(When will it stop? When will it stop?)

When will it stop?
When will it stop?
When will it stop?
