"Open to Close"

Visit "[Open to Close](#)" on MotoLyrics.com

It's a long drive south on 35
The sun has bleached out the sky
Texas stretched wide
I'm swallowed inside
And this trip has just begun

I know someone is waiting for me
Still where the winter wind blows
When I arrive it can't be soon enough
So we're singing from open to close

I'm outside on your doorstep
We'll film this all in one take
Your arms stretched wide
No better place to hide
Don't tell me if I'm not awake

I know someone is waiting for me
Still where the winter wind blows
When I arrive it can't be soon enough
So we're singing from open to close
