Be still my mind  
don't worry  
Everything works out  
if it should

if I could only see the future  
There'd be no joy in life at all

it's the unknown  
that drives me crazy when I'm alone  
it's the unknown  
that keeps me happy on my own

Can you see where I'm going?  
cause I can't  
The rocks I stand on, are they real?  
no they're not

if I could only see the future  
There'd be no joy in life at all

it's the unknown  
that drives me crazy when I'm alone  
it's the unknown  
that keeps me happy on my own
