Oh she's in the sky  
What can I say I shouldn't try  
I wanna know you  
How can I show you

I will play the part of a friend who lends a heart  
Just so I can see you want love desperately  
Although you don't mean me  
I dream the end we'd be  
So if I have to I'll stand here and wait

What if I were the kind of guy  
Who could bring to your stars your diamonds  
I could be all you want and need  
But I'm not that though I would try for you

Oh she's in the sky what can I say as she passes by  
I should've told you  
What's the worst you could do  
A "no" would let me go and then at least I would know  
If I'm to be alone at least my hand was shown

And though you don't pick me  
I dream the end we'd be  
So if I have to I'll stand here and wait

What if I were the kind of guy  
Who could bring to your stars your diamonds  
I could be all you want and need  
But I'm not that though I would try for you
