...you say enough what would it be
Hard to make it out in front of me
Tonight
Yes I'm on my way out to be dream
Don't think you should stay from my...

Pick up of the places that we say we wouldn't
No one can shake us... for good
Look out all of the places we say we would
No one can,

... it's like you say you can't believe
I won't stand in your way so you will see...
Time rushes on us what can you do
I got me enough to get to you tonight

Look out of the places we say we would
No one can shake us... for good
Look out all of the places we say we would
No one can,

This is enough you have enough
We have enough
You have enough, enough is enough

2 x
Look out of the places we say we would
No one can shake us... for good
Look out all of the places we say we would
No one can,
