"Always"

Visit "[Always](#)" on MotoLyrics.com

The dust has settled on the ground
I could see it fill the lounge
If I'd ever let you down
We would never obleft this town

Got to hold on to your pride
Don't let them tell you what's inside
But before I reach the end
????

Always, always

Walking down the *????* road
My legs are heavy from the low
Only sweetness and defeat
Is that you left and come with me

So I check my phone again
and I see it hasen't rang
But I feel before I go
You find a way to let me know

Always, always

Always, always
