"Believe Me"

Be with the soul
It breaks far too easy
I lost control
Of the things that have made me

No matter what you ever lack
Don't give yourself a heart attack
You're better than the other ones
Believe me

Come on, come down
Don't let it defeat you
While you're away
I loved being with you

No matter what you ever lack
Don't give yourself a heart attack
You're better than the other ones
Believe me

So bet it passed the father please
This world will bring us to our knees
But that applies to everyone
Believe me. Believe me!
