Visit "[Love Is Here](#)" on [MotoLyrics.com](#)

If you could see the lover in me
And we could join our hands together
You could see how good it could be
We'll sing these stupid songs forever

Can you feel it?
Love is here
It has never been so clear
You can't love what you have not
So hold on to what you've got

Is Trudy really smilin' for me?
I'd change my name in case she found me
Tremblin' I can't believe
I've got to leave the girl behind me

Can you feel it?
Love is here
It has never been so clear
You can't love what you have not
So hold on to what you've got

Can you feel it?
Love is here
It has never been so clear
You can't love what you have not
So hold on to what you've got

If you could see the achin' in me
I'd change my name in case you lost me
Tremblin' down to my knees
I've got to leave the world behind me

Can you feel it?
Love is here
It has never been so clear
You can't love what you have not
So hold on to what you've got
Ohh ho ho
