If you want my love tell me 'bout tomorrow
Cause I can't wait one more day
Cold in the night waiting for a promise
So all alone I'm hanging on

Woman don't play this game
You'll never get my lovin' this way
All this time you been livin' for the moment
It works for some but not for me - no

It's not enough to tell me you love me
It's not enough to tell me that you care
It's not enough to tell me you want me
Darlin' you know deep inside
If you want my love then girl you must show me

We can make it last if we hold on till tomorrow
Or will we throw it away
Empty words - you say you wanna please me
But half a heart won't make it right

It's not enough to tell me you love me
It's not enough to tell me that you cried
It's not enough to tell me you're sorry
Darlin' you know deep inside
If you want my love then girl you must show me
