Heard you today
That isn't my name
You were fast asleep
Forget what he did
Can I be the kid for you soul to keep?

Some of us laugh, some of us cry
Some of us smoke, some of us lie
But it's all just the way that we cope with our life

I've grown to see
The philosophy
Of my own mistrust
We all have our faults
Mine come in waves which you turn to rust

Some of us laugh, some of us cry
Some of us smoke, some of us lie
But it's all just the way that we cope with our life

I've been hangin' onto somethin'
You keep laughin', awe inspirin'

Some of us laugh, some of us cry
Some of us smoke, some of us lie
But it's all just the way that we cope with our life

Some of us laugh, some of us cry
Some of us smoke, some of us lie
But it's all just the way that we cope with our life

My wonderin' soul
Found solace at last
I wanted to know
How long it would last
She's losing control
She's coming down fast
The heart that I stole, I'm not givin' back
Never givin' back
