Be still my child
We'll overcome
The evil mind
behind the bomb

So lift your hearts
Open your minds
And leave no room
For words unkind

Be still my friends
We'll overcome
The evil mind
behind that bomb

Don't waste your words
I've already grown
I'm gonna find my way back home
Don't waste your words

I've already grown
I'm gonna find my way back home

Be still my friends
We'll overcome
The evil mind
behind that bomb

Don't waste your words
I've already grown
I'm gonna find my way back home
Don't waste your words
I've already grown
I'm gonna find my way back home *[repeats]*
