You may know my name, but you don't know my pain  
I can't stand the light, I'm from the dark side  
I may look the same, but I ain't playing games  
I can't die, 'cause the music is my life  
This is my life, my life, my life  
And I will live it 'til the night is f\*cking done

And I will live it 'til the night is f\*cking done

You may know my name, but you don't know my pain  
I can't stand the light, I'm from the dark side  
I may look the same, but I ain't playing games  
I can't die, 'cause the music is my life  
This is my life, my life, my life

And I will live it 'til the night is f\*cking done

You may know my name, but you don't know my pain  
I can't stand the light, I'm from the dark side  
I may look the same, but I ain't playing games  
I can't die, 'cause the music is my life  
This is my life, my life, my life
