I can tell by the look in your eyes that you like what you see.
I can tell by the touch of your hand that you've got what I need.
Baby
there's no hurry
we've got no worries
let's take all night.
Give me sweet lovin'
come taste my honey into the light.
Touch by touch
your fingers do the talking I need to hear so much.
Touch by touch
now you're getting closer to what I want so much.
I can tell by the woman in me
you're the man that I need.
So much lovin' that comes from your heart that you give tenderly.
Come take my hand
I'll show you where - where you can lead.
Baby
there's no hurry
we've got no worries
make me believe.
Touch by touch
your fingers do the talking I need to hear so much.
Touch by touch
a chemical reaction makes me give it up.
Touch by touch
put your arms around me
baby
wrap me up.
Touch by touch
now you're gettin' closer to what I want so much.
Touch by touch
your fingers do the talking I need to hear so much. . .
by touch. touch by touch. touch by touch.
