Life in hell would be better than this I feel  
Can't escape from the endless pain they give  
Falling so deep, so deep that no one could go  
Stay ahead, from the coming cunning storm

Bodies are burnt and the stench drains our blood  
Can't feel out when they are gonna hit us  
Fates have rolled over the time that have passed  
Our bones are crushed on every step we take

They've ruined our life, they've burned our sleep, no  
more dominance will be tolerated  
They've touched our instinct, throw the belief and face  
the reality of life  
They've ruined our life, they've burned our sleep, no  
more dominance will be tolerated  
Show no mercy, show no love, raise the flag of hate  
and die

No one can push you back until you loose your hold,  
their dominance is for sure  
Our wound can't be healed, our tears can't be wiped,  
play no game and hold the name

Innocence decimated, tolerance estimated,  
independence limited with ruthless law  
They are wrong can't you see, you are fools can't you  
feel, kill all the fame and leave no name

They raise their flag and make their identity  
You trap in their smile, later bury yourself  
They are always right at the place where they stand  
Cus your are the fools who always becomes the prey

Your blames are ignored, for the men at top  
You will be erased totally from this earth  
Choice is gone cus you don't deserve to have  
You fools you fools, is what that I will call you

They've ruined our life, they've burned our sleep, no  
more dominance will be tolerated

They've touched our instinct, throw the belief and face  
the reality of life  
They've ruined our life, they've burned our sleep, no  
more dominance will be tolerated  
Show no mercy, show no love, raise the flag of hate  
and die
