I'm fighting every reason to say this last goodbye to you,
Just to save me and give one this night.
So softly I'll walk through the shadows,
Just to save me your eyes.

At the end we'll fall, we'll fall into forever.
We'll fall until we know made it. (Where did we go wrong?)
At the end we'll fall, we'll fall into the rain.
Scream on and still, I still walk into the darkness.

You blame me (I need you) forgiveness (It's over)
I want it forever but this feeling is off.
It's so off we need to carry on to move on past the dawn into night.
We've gone through every step leading all the way.
I'd kill myself to see you cry.

At the end we'll fall, we'll fall into forever.
We'll fall until we know made it. (Where did we go wrong?)
At the end we'll fall, we'll fall into the rain.
Scream on and still, I still walk into the darkness.

It's calling me out.
The rain is coming down.
(I'm trying.)
The rain is coming down.
(I'm trying.)

Listen to the sound as we gaze before we drown,
before we drown.
The rain is coming out, the raining is calling as we drown.

At the end we'll fall, we'll fall into forever.
We'll fall until we've made it.
We'll fall until the sun comes out. (Where did we go wrong?)
At the end we'll fall, we'll fall into the rain.
Scream on and still, I still walk into the darkness.

The rain is coming down.
(I'm trying.)
The rain is coming down.
(I'm still trying.)
